## "August Flower"

Mr. Lorenzo F. Sleeper is very well known to the citizens of Appleton, Me., and neighborhood. He says: "Eight years ago I was taken 'sick, and suffered as no one but a dyspeptic can. I then began taking August Flower. At that time I was a great sufferer. Every-thing I ate distressed me so that I had to throw it up. Then in a few moments that horrid distress would come on and I would have to eat and suffer

For that "again. I took a 'little of your medicine, and felt much better, and after taking a little more "August Flower my Dyspepsia disap-

peared, and since that time I have never had the first sign of it. "I can eat anything without the least fear of distress. I wish all that are afflicted with that terrible disease or the troubles caused by it would try August Flower, as I am satisfied there is no medicine equal to it."

## The Standard Trotting Stallion, ROMEYN 6256

Will make the season of 1891, from April 1st to July 1st, at—

ROMEYN'S STABLE, NORTH SIERRA ST., RENO, NEVADA.

## Description and Pedigree:

ROMEYN 6256 was foaled 1884, stands 15½ hands high, weighs 1,150 pounds, and is a horse of magnificent conformation. He captured the State Fair premium at Sacramento in 1889, as a standard bred two-year-old stallion, against one of the finest shows of horses ever held in the West. He is a beautiful dark bay with dark points. He is remarkably intelligent, of good disposition and spirited. He is well boned and muscled up, speedy and game; qualities which he imparts to his progeny.

ROMEYN 6256 is by Mambrino Wilkes 6083 (sire of Gus Wilkes, 2.22; Alpha, 2.37; Balkan, 2.29½; Ray Wilkes, 2.30 and Lara, 2.22½), he by George Wilkes 519, record 2.22 (sire of Harry Wilkes, 2.13½; Guy Wilkes, 2.16½; Mike Wilkes, 2.15½; Wilcox, 2.16; Wilson, 2.16½; So So, 2.17½; J. ## JUST A LITTLE KNOWLEDGE.

The Possession of It Does Not Pay Very Well in the Long Run.

"It doesn't pay to know just a little about things," said one of those men who are always after "general information." "Judging from experience I thoroughly agree with the gentleman who said, 'A little knowledge is a dangerous thing.' For example, I have never been able to eat an egg with thorough relish—though exceedingly fond of them for their flavor—since I learned that the little spot on one side of the yolk, toward the butt end, is the germ of the chicken. You may cook an egg in what fashion you please, but whether it is boiled, poached or fried, you will find that germ always conspicuous, when once you know it is there, and you cannot eat the egg until you have carefully removed it. It would add considerably to my happiness if I could believe today what I was taught in the nursery, that the white of an egg makes the bones of the subsequent fowl and the yolk the flesh, instead of knowing, as I do, that both are merely the food by the consumption of which the germ is developed.

"But that is only a very minor instance. My slight knowledge of pathological anatomy, amounting to the merest smattering, is a source of continual distress to me. Though an abstemious man, on the whole, I cannot indulge in a glass of any alcoholic beverage without realizing that I am subjecting my system to the action of a 'heart stimulant' which accelerates the pulsations of that organ injuriously. The slightest sensation of any sort about my chest causes me to imagine, despite myself, that the tubercular bacilli are beginning to get in their deadly work upon my pulmonary system.

"Presumably it is only a trifling intercostal rheumatism, but I am none the less uneasy. A similar feeling in the small of my back makes me think of Bright's disease. Supposing that I swallow an orange seed by accident, it occurs to me at once that there is a chance for its getting into a certain useless sac attached to the stomach, where, if it does, it will occasion inflammation that is necessarily fatal before long. I know that my intestines are a prey to certain verminous parasites, as are those of every one else; but they do not occasion me so much annoyance as the possibility, always existing, that painful concretions of lime may be forming in my bladder or my liver.

"A superficial knowledge of physiology takes much of the poetry out of existence and removes a large part of the gliding from the sublimity of gingerbread, as one might say. Having acquired it, a man realizes rather painfully that he is largely an elevated animal after all, though hitherto he has imagined himself chiefly mind.

"Supposing that one's partner in the german is a thin girl, he cannot help figuring her out as an articulated skeleton and setting an estimated price upon her as a 'preparation' in that guise. This does not apply, however, when she is an acknowledged heiress.

"Imagination is always opposed to facts, and by as much as the latter are calculated to dispel agreeable illusions; they are destructive of happiness. Therefore I am inclined to think that however desirable knowledge may be respecting things with which one has no personal and intimate concern, it is most comfortable to know a very little about one's self and one's environment. 'Drink deep or taste not the Pierian spring.'—Washington Star.

## Two German Words That Mean Much.

German barbers in New York have a curious system of signs and mysterious words by which they indicate to each other the tendency of customers to give large tips, small tips or none at all. If a new barber in a large shop gets a generous customer in his chair, a fellow workman who has shaved the generous customer before mutters in his ear, "Brunz"—that is, "He tips." "Brunz" is a distinctively German product, and till recently was never heard outside of continental barber shops. Its greatest merit is that it means nothing to persons who are not barbers, for it has no indorsement from the German dictionaries, and does not even enjoy the questionable authority of student slang.

German barbers in New York designate a man who gives no gratuities as a "muff." Like "brunz," "muff" is no word at all, and was invented by wily continental barbers for the needs of the shop only. The amount of the tip to be expected is revealed by the old journey-men to the new ones by various contortions of the fingers and by low German monosyllables of no apparent relevancy. —Montreal Star.

## Stones Are Composed of Shells.

The tripoli, used for polishing our tableware, is composed entirely of the silicious shells of infusoria. The earthly paint with which our houses are colored is nothing but the remains of different species of these animals. Even the hardest rocks—the flints—show, when examined under the microscope, that they, too, are composed of the skeletons of infusoria. I once examined a thin section of a flint formerly used by the great hunter, Daniel Boone. This flint was composed of the shells of infusoria. The gun, an old flintlock rifle, from which this flint was taken, is still preserved at Frankfurt, Ky.

Even many of the precious stones, such as the carnelian, owe their beautiful colors to the presence of fossil infusoria. —Macon Telegraph.

## OUR SENATORS ON HARRISON.

Senators Stewart and Jones are evidently not among the adulators of President Harrison.

Senator Jones says he wants the veto power of the President abolished. He served six years with him in the Senate, and during all that time no one thought of asking his advice or referring to his opinions on any subject, yet now, as President, he has the power to set aside and nullify the deliberate work of three or four hundred men after it has passed committees of both Houses of Congress, and been thoroughly and carefully considered.

Senator Stewart says: "We all love the President, but for some reason he does not like Nevada. I suppose it is because our State had something to do with the defeat of the Force bill, but he should not mind a little thing like that."

When asked if he thought Harrison would be renominated, Senator Stewart said: "No, Harrison will not be President again, and I am afraid Blaine is not going to be. Anyway his friends have about made up their minds that if he is alive in 1892 he would be in no condition to be a candidate for President. I hope and pray he will get well and strong again so that he will be a candidate. It is hard to say who will be nominated, but we can at last fall back upon Ignatius M. Donnelly."

## EXTENDING GOVERNMENT BONDS.

It appears that there will not be sufficient available funds in the National Treasury to meet the obligations of the Government and the Treasury Department is making arrangements for the shortage. It is stated that a circular is to be issued on the subject of 4 1/2 per cent. bonds, which mature next September. Holders of the bonds will be informed that if they do not desire their redemption at that date, they may secure their continuance at a lower rate of interest, probably 2 per cent. This will relieve the Government from the necessity of making a new loan or asking an extension of time for the payment of the bonds.

Possibly the scarcity of money in the Treasury may result in keeping the Mints engaged in coining silver, for the profit the Government realizes from the business. All the silver dollars in the Treasury are represented in the circulation by silver notes and the bullion stored in the Treasury vaults is also represented in the circulation by certificates. The difference, however, between the price paid for the silver bullion and the value of the bullion when coined amounts to several millions, and if the Government is short of funds it may continue the coining of standard dollars to realize this difference, which will be clear profit.

## SPECULATION IN SILVER.

Silver bullion, 1,000 fine, is now selling in the New York market at a fraction less than 97 cents per ounce. It may continue at these figures perhaps two or three months longer, and may decline still further if its coinage is stopped at the Mints in July. That there will be a reaction, however, within six months there is no reasonable doubt. The next House of Representatives is morally obligated to pass a free coinage bill and the Senate cannot stultify itself by doing less. That the President will veto the bill can scarcely be doubted, as the financial views of the Administration are said to be dictated by Wall Street. However that may be the fact that a silver bill will be passed by both Houses will increase the market value of silver and it is not improbable that the metal will advance fifteen or twenty cents an ounce before Christmas, whether a free coinage bill be introduced before that time or not.

Silver bullion ought to be a good investment at present prices, if purchasers can hold it for six or eight months.

It is said that the Czar of Russia is displeased at the harsh treatment to which Queen Natalie was subjected by the Servians. She is a daughter of a colonel in the Russian Imperial Guard and a Roumanian Princess. At the time of her marriage her husband was known as Prince Milan, though he afterwards became King of Serbia, an office which he now vacates for a consideration. He mistreated the Queen, scorned a divorce from her and ordered her expulsion by force from Belgrade.

John Bardsley, City Treasurer of Philadelphia, has gone wrong. The discrepancy in his accounts is variously estimated from \$250,000 to \$507,000. What can be expected from ordinary treasurers when the custodian of the coin of the great moral city of the Union appropriates a half a million or more of the public funds to his own use? Bardsley is sick in bed, and two detectives are guarding the room in which he lies, lest he might emigrate to the Canadian colony.

Judge Honk, a member of Congress from Tennessee, took a strong solution of arsenic by mistake Sunday afternoon. Antidotes were promptly administered and the Judge was apparently all right, but he died suddenly yesterday morning.

The President has issued an order to close all the Executive Departments next Saturday—Memorial Day. The postoffices and other Federal offices will be closed on that day to give all employees opportunity to participate in the exercises.

She Lands 100,000 Pounds of Opium—Ward McAllister Loses His Suit—A New Coaling Station May Be Built on the Island of Samana.

A Naval Station May Be Established on Samana Bay.

Special to the Journal.

NEW YORK, May 25.—A Washington, special says: "The question of a naval station in the West Indies is being very seriously discussed by the Government. The failure of negotiations for a mole at St. Nicholas will probably result in an attempt to obtain the desired privileges on the eastern side of the island, from the government of San Domingo. It is, perhaps, not generally known that Admiral Gherardi left Port au Prince four weeks ago, under cable orders to go direct to Samana bay and examine into its fitness for a coaling station, and that while there, General Heurieux, President of San Domingo, came from San Domingo City in his yacht, and was closeted with the Admiral for several hours. There is no doubt that the subject of the conversation was the establishment of a naval station on Samana bay, and that the price is the friendship and the moral support of the United States in the present difficulty between San Domingo and Hayti. It is too early to say the United States Government will receive the proposition favorably, but Tracy is very much in earnest and the late action of the Haytian Government created a feeling which is far from friendly to Hayti. It is thought, as between the two republics, preference will be given to San Domingo."

## The Original Package Law Sustained.

Special to the Journal.

WASHINGTON, May 25.—The United States Supreme Court to-day upheld the constitutionality of the original package law passed by Congress, and also held it was not necessary for Kansas to re-enact its prohibition law after the passage of the Congressional Act, in order to shut out liquors in original packages. The case came up on the appeal of Wilkinson, the Sheriff, against Baber, the lower court having decided against the State. This court reverses the decision of the lower court. Chief Justice Fuller rendered the decision, the entire court being with him. In the case of the Chicago Distilling Co. against Stone, the Internal Revenue Collector, Justice Bradley delivered an opinion in favor of the Distilling Co., holding unlawful the Government method of assessing at the end of each month, what he called "mulot money" to make up any distillation by distilleries in excess of the capacity estimated from day to day.

They Die Together.

Special to the Journal.

SAN FRANCISCO, May 25.—The bodies of Reyes Gonzales, a Mexican barber, aged 28 years, and Severa Sessero, aged about 25, were found late this afternoon in a room at the Model lodging house on Montgomery Avenue. The woman's body bore many knife wounds, and a stiletto was found sticking in Gonzales' heart. The couple, who were said to have come here from Los Angeles, have been living together for seven weeks, but it is stated that the woman had become indifferent to Gonzales and had left him about two weeks ago, but subsequently became reconciled. Gonzales being jealous is said to have been the cause of the tragedy.

The "Boss" Smuggler.

Special to the Journal.

SAN FRANCISCO, May 25.—It is stated that a cargo of one hundred thousand pounds of opium brought from China on the yacht Halcyon has been smuggled into this country. The opium was transferred from the yacht to a small steamer, which in turn loaded the drug on a lumber schooner in Puget sound. With the duty on opium at \$12 a pound the opium ring made a profit of \$1,200,000 by the transaction. The Halcyon is now lying in Barclay Sound, B. C., while her owner, W. H. Whaley, is in this city.

RED BLUFF, Cal., May 25.—George Smith shot and killed one, Fredrick, of Cottonwood yesterday afternoon near Alf Jones' place. Both men were on horseback. Smith accused Fredrick of poisoning his cattle. Fredrick attempted to draw a pistol when Smith shot him dead with his rifle. Smith came to town this morning and gave himself up. The sheriff returned with him to the scene of the shooting.

## The Cattlemen Are Blamed.

Special to the Journal.

CHICAGO, May 25.—Captain Ewers, United States Agent at the Tongue River Agency, was in the city to-day and had an interview with General Miles about the situation among the Indians in the West. The Captain has just completed a tour of the camps within a radius of 200 miles of the Tongue River Agency and he said the people now to be feared, were not the Indians but the cattlemen who want all the land they can grab for their cattle to roam over. They stirred up the Indians by stealing their land, and taking advantage of them in every way, and the Indians are complaining bitterly of the encroachments of these marauders.

A Conspiracy to Defraud Stockholders.

Special to the Journal.

SAN FRANCISCO, May 25.—Warrants are out for the arrest of J. M. Thompson and James H. Hawthorne-Waite, charged with conspiracy to defraud. Thompson invented a stock company, selling shares at fifty cents each. The machine was not finished and required many changes. Finally the shareholders found that the machine had been perfected by the use of the amalgamator company's money and was being sold by Hawthorne-Waite & Co., while an imperfect model was given to the company. It is said the investors in the company are out about \$7,000. Hawthorne-Waite is now in British Columbia.

Ward McAllister Loses.

Special to the Journal.

WASHINGTON, May 25.—The Supreme Court has rendered a decision in the case of Ward McAllister vs. the United States. McAllister was removed from the office of District Judge of Alaska by President Cleveland, and claimed his salary until his successor qualified. The Court said Alaska is not under the jurisdiction of the United States Court in a constitutional sense, but is under the Territorial Court, and the President is given complete power over Territorial officers. Judgment is therefore rendered in favor of the United States.

Pennsylvania's Treasurer a Defaulter.

Special to the Journal.

PHILADELPHIA, May 25.—This afternoon the Attorney General had an affidavit prepared and presented to Magistrate Pole, charging Bardsley, the State Treasurer, with having collected \$567,604 belonging to the State of Pennsylvania, and failing to account for the same. Magistrate Pole thereupon increased Bardsley's bail from \$25,000 to \$50,000. Two detectives have remained in a room adjoining Bardsley's bedroom since Saturday night when the first warrant was served. In view of Bardsley's condition it is hardly likely that any effort will be made to secure bail.

## NEVADA PRESS ASSOCIATION.

Meeting of Officers, and of Delegates to the National Association.

A meeting of the Nevada Press Association was held at the Gazette office yesterday, pursuant to the published call.

The meeting was called to order by the President, C. C. Powning, who stated the purposes for which it was called.

C. C. Powning was re-elected President, and A. C. Bragg Secretary for the ensuing year.

The Association being entitled to one delegate in the National Press Association to be held at St. Paul, Minnesota, July 14th next, in addition to the President and Secretary, who are, by virtue of their offices, entitled to membership in the Association, S. P. Davis was elected to represent the Nevada Association in the National Association.

The following resolution was adopted:

Resolved, That all papers in the State having bills for unpaid accounts for printing against the State Central Committee be requested to send them to the Secretary, with proof that said accounts are justly due and payable. The Executive Committee for work done, and the expenses of said suit shall be paid by assessing members of the Association in such sums as are necessary.

The sentiment of the Association was strongly in favor of the free and unlimited coinage of silver, but it was decided to take no formal action on the question until a meeting of the Association to be held next September.

Messrs. Davis, Fairbanks and Kelley were elected Executive Committee and the meeting adjourned to meet in Reno Thursday, of the week in which the State Fair will be held.

## TELL-TALE MAIL LOCKS.

Tampering With the Mails Made Very Risky.

"It is a very risky thing nowadays for a mail agent to interfere with the lock on the mail pouches in his care," said Assistant Postmaster Gaylor to a World reporter, as he handled a burnished copper lock which lay upon his desk. "This lock makes it practically impossible for any interference to go undiscovered. Examine this lock and you will see that each time you turn the key, the register moves up one number. I lock it on the number 1234. Now you unlock it. See, the number is 1235. And you cannot get it back to the first number, do what you may. All our locks begin with 1 and stop at 9999, giving them a life of service of 53 years. When the last number is reached the lock will not work any more unless it is sent back to the factory and 'reset.'"

## Auction.

I will sell at auction the remnants of my stock of dry goods, boots and shoes, commencing May 26th, and sell at 2 and 7 P. M. until May 30th. All goods not sold will be boxed. Store to rent and fixtures for sale. I will also sell at auction on each day a large lot of oil paintings, chairs, tables, and household furniture.

## Seats in the Stock Exchange Not Taxable.

Special to the Journal.  
SAN FRANCISCO, May 25.—In response to a question by Assessor Sieber, City and County Attorney Durst has sent him an opinion that seats in the stock exchanges and boards are not assessable. He says that as owners pay a license to exercise the privilege of buying and selling stocks, it would be double taxation to assess their seats in the board.

## Bad Indians at Work.

Special to the Journal.

CLIFTON, A. T., May 25.—C. Y. Ruggles, a rancher in Bear Valley, N. M., states that a rancher on Clear Creek, close to Alma was found dead in his garden and that seven Indians were seen close to that place and troops were at that point. Another man was severely wounded. Ruggles has abandoned his ranch. He believes the Indians are from Mexico.

## "Plenty Horses" on Trial Again.

Special to the Journal.

STOUT FALLS, S. D., May 25.—The second trial of "Plenty Horses," the Sioux warrior, for the murder of Lieutenant Casey began to-day before Judges Shiras and Edgerton. No testimony materially differing from that of the first trial has been given so far.

## Quite a Compliment

Inspector General George H. Barton, U. S. A., Military division of the Pacific, visited the State University yesterday in compliance with instructions from the War Department and inspected the Military Department of that institution. He expressed himself as being well pleased with the appearance of the cadets on the parade ground and said: "The arms and accoutrements are in good order, in fact the best I have ever found at a college." This from a bluff soldier is highly complimentary to Lieutenant Neall, who, the General says, "stands high as an officer, a scholar and a man."

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says:

Toledo, O., Jan. 10, 1887.

Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions. Yours truly,

L. L. GOSBURN, M. D.,  
Office, 215 Summit St.

We will give \$100 for any case of catarrh that cannot be cured with Hall's Catarrh Cure. Taken internally.

## For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken off your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach, and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives Tone and Energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

## Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathy. Headache, the effects of the disease, banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced."
